

Feeling the frustration of locating your non-searchable content in WorkSite?

The **pdfDocs Content Crawler** solves your issue and allows you to search an entire DMS database for previously unsearchable content including:

- Scanned images, saved as TIFF or image PDF
- Emails with TIFF or image-based PDF attachments
- Electronic faxes saved as TIFF or PDF

NEED PROOF

To assist your firm in deciding the value of the pdfDocs OCR Content Crawler, DocsCorp are offering to install the 'function limited' software for an evaluation period of 48 hours.
