

Would you like to be able to locate your non-searchable content in WorkSite?

The ContentCrawler gives WorkSite professionals confidence that their content is 100% searchable.

The **pdfDocs Content Crawler** solves your issue and allows you to search an entire DMS database for previously unsearchable content including:

- Scanned images, saved as TIFF or image PDF
- Emails with TIFF or image-based PDF attachments
- Electronic faxes saved as TIFF or PDF

Does this deal interest you?

- 20% off list price for an order placed by 24/12/13

Contact Fiona Hocking for a quote or to arrange a trial of the software.
