There must be something in the water

Proud parents Sarah and Peter are celebrating their second child. Born August the 7th, Charli Norma Hutchinson – 7 pound 2 ounces.

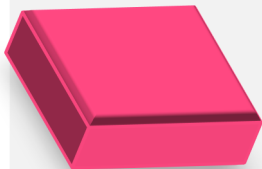

"To date she is a dream, Henry (son and heir) has been harder work trying to get him used to having to share Mum and Dad." - Sarah

Product watch

From the RBRO stable, Link2DMS is an innovative tool that has the ability to intercept the key operations from applications not integrated with your WorkSite Document Management system.

Open and save documents from any application directly to WorkSite. Link2DMS transforms some of the most popular non-integrated applications to integrated.

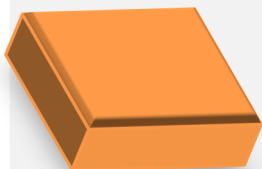

Welcome back Cindy Casey

We are very pleased to announce the return of Cindy Casey.

After 2 children and a stint with Alphawest as a Business Analyst in a variety of iManage and TRIM projects, Cindy brings 20 years' experience in the legal industry which includes 15 years working with document management systems, to the i2 Management applications team.

We are very lucky to have been able to secure her services and hope all will make her feel welcome.

Confidential data

Metadata has the potential to pose a serious security risk, cause embarrassment or negatively impact an organisation's financial well-being. Used by more than one million people worldwide Metadata Assistant is the leading metadata removal tool available on the market today and will:

- Prevent disclosure of confidential or sensitive information
- Reduce financial and reputational risk
- Ensure regulatory compliance
- Ensure enterprise compliance to metadata management
